Dear NSCSS Colleagues,

As I begin my term as your Nebraska State Council for the Social Studies president, I am hopeful about the future of Social Studies in our schools. Certainly there are concerns about the emphasis placed on other subject areas at the expense of Social Studies, however the interest in the recent creation of new State standards served to remind us of how important our jobs really are. According to the National Council for the Social Studies, “Because the subjects that compose social studies touch upon cultural, societal and political topics, social studies generates the most controversy when decisions are made regarding what is taught to students. It is important, therefore, that the development of standards for social studies relies on strong scholarship rather than politics.”

I wholeheartedly agree. We as teachers need to protect the Social Studies, both the in the amount of time and energy that our discipline receives in the curriculum as well as protect quality teaching from any group that would rather we teach our students what to think than how to think. The excellent Social Studies teachers that I have met in this great State need to be allowed to do their jobs, including creating effective citizens that can analyze every angle of an issue and take part in civil discourse that leads our country to solutions for problems at home and abroad.

Your State Council is here to serve Nebraska teachers and enable them to do just that. Through our annual conference and newsletters that keep teachers informed of professional development opportunities the Council plans to maintain the high standards that we have for many years. Looking to the future, we are hosting a conference on March 23rd that will allow teachers the opportunity to gather and discuss the new standards, as well as hear from our professional organizations around the State regarding lesson plans to implement the standards. We are looking into increasing advocacy, improving our technology and using technology to find ways to bring our programs to Social Studies teachers across the great State of Nebraska. It is an exciting time in Social Studies and the leadership of the Nebraska State Council for the Social is committed to serving the teachers of Nebraska in any way that we can in these most important efforts.

Sincerely,
Heidi C. Reinhart
President

The function of education is to teach one to think intensively and to think critically… Intelligence plus character—that is the goal of true education.

State Board of Education Adopts New Social Studies Standards

On December 7th, 2012, the Nebraska State School Board adopted new State Social Studies Standards. The yearlong process began with a committee of fifty K-16 educators meeting and creating early drafts. Draft standards were reviewed and refined by an editing team and a State School Board sub-committee. In May and again in November, the Nebraska Department of Education (NDE) held public forums at locations across the state. The purpose of the forums was to gather public input about the draft standards. NDE also created an online survey about the standards and received over one-thousand responses. In addition, a citizen group created their own alternative standards which they encouraged the State Board of Education to adopt. The standards underwent many revisions as a result of the information gathered by these processes.

For the first time in over a decade, schools districts and social studies teachers have a new set of social studies standards. The structure of these standards is organized as K, 1st, 2nd, 3rd, 4th, 5th grades and two grade bands. The grade bands are 6-8 for middle school and 9-12 for high school. The standards are arranged by the four core areas of: Civics, Economics, Geography and History. The Economics area includes standards on financial literacy.

School districts have begun the process of reviewing and comparing their local school district social studies standards to the new state social studies standards. These reviews are being done at the school, district and ESU levels. School Districts have until December 7th, 2013 to either adopt the state’s social studies standards or create standards of their own that are more rigorous than the state social studies standards.

The standards are arranged in a vertical or horizontal version. To view the new state social studies standards can be found at the following web address: www.education.ne.gov/SS/

Is Capitalism Good for the Poor?

Please join us for a fascinating one day teacher seminar that uses economic reasoning to analyze the impact of capitalist institutions on the well-being of the world’s poor.

Date: Thursday, May 30, 2013
Time: 8:30 am to 3:30 PM
Location: Nebraska Club, 233 S. 13th, 20 floor, Lincoln
Stipends: Nebraska teachers will receive a $50 stipend
Refundable deposit required: $25

The lesson plans and student activities in Is Capitalism Good for the Poor? (CAP) have been carefully designed and written by distinguished economists, including a Nobel Laureate, award winning curriculum writers, and classroom teachers to engage students in discussions and study of some of the most important economic issues of our time. The title question is intentionally provocative to stir interest and thought, and the answer—yes or no—depends on the particular features of a nation’s institutions and how we measure and perceive poverty. Poverty, capitalism, economic growth, income distribution, markets, property rights, rule of law, and moral values are among the many topics addressed.

This teacher seminar is appropriate for all middle and high school social studies, business, family consumer science or other interested teacher.

We welcome applications from core subject teachers for grades 6 - 12 as individuals or as part of a team. Priority will be given to social studies, history, and English/language arts teachers.

The deadline for applications is Monday, April 1, 2013. For more information about the Institute and to apply, visit http://americanart.si.edu/education/dev/cs/.
Culture Korea Kafe. Explore Korean history and culture through presentations from prominent scholars, performances, and meals featuring delicious traditional foods. Participants in this seminar presented by the Korea Cultural Center in Los Angeles will receive lessons and other resources and have the opportunity to network with educators from throughout the United States.

Seminars are limited to only 60 educators so we may better server you! Out of town/state educators may apply for our Fellowship Program to cover travel and hotel costs. For more information, visit the Korea Cultural Center website at www.koreaacademy.org or contact Daniel Lee at daniellee721@yahoo.com.

Teachers and college students majoring in education are eligible for this summer program in China sponsored by International Partnerships in Education. Participants will spend 14 days in Guangzhou, working to help Chinese elementary, middle, and high school students improve their English skills. In addition, participants will enjoy a three-day cultural tour of Beijing. Most expenses covered. For more information: www.ipie.us

The National Consortium for Teaching about Asia (NCTA) and Program for Teaching East Asia (TEA) at the University of Colorado invite application the summer 2013 residential summer institute on contemporary Japan. The 2013 institute is open to secondary teachers nationwide who teach about Asia. The institute is also designed to provide enrichment for teachers who have previously completed an NCTA seminar. Teachers selected to participate receive a travel stipend to defray transportation costs, a full housing/meal package, institute texts, and teaching resources. The program is 20 teachers; applications are reviewed by a selection panel. Application deadline is March 15, 2013; notification date is April 4, 2013.

Institute Overview

In the first years of the 21st century, Japan struggled with persistent and critical challenges, including economic stagnation, an aging population, disaffected youth, and crippling governmental stalemates. Then, in March 2011, the “triple tragedy” of earthquake, tsunami, and nuclear meltdown struck. The nation’s efforts to address the immediate crisis brought long-term issues into new focus. Many observers cite 2011 as a turning point, providing both an opportunity and imperative for Japanese to reappraise their present and forge new directions for the future. This institute considers challenges facing Japan today and offers perspectives on Japan’s directions in the 21st century. Among the topics to be addressed are 21st-century social trends and challenges, political reform, global Japan, lessons of Japan’s triple tragedy, and new directions in culture, literature, and the arts. The eight-day program offers teachers a unique opportunity to consider how and what to teach about contemporary Japan. Teachers’ work will be informed by lectures and discussions with academic and public policy specialists. The institute will feature a curriculum strand of sessions on classroom implementation presented by teacher consultants.

Now in its 29th year, the Program for Teaching East Asia is a professional development and curriculum program with the goal of enhancing curriculum and instruction about East Asia in grades K-12. TEA is one of the founding institutions and National Coordinating Sites of the National Consortium for Teaching about Asia (NCTA), which celebrates 15 years of programming in 2013.

2013 Annual Tribute to the Rescuers High School Essay Contest

Moral courage is the ability to take a strong stance on a specific issue and to defend it based on one’s personal beliefs or convictions regardless of danger or threats to personal safety - physical, emotional or otherwise.

Choose and research an individual or group that demonstrated moral courage in a historic or current event. Be sure to discuss the topic with your teacher. Your topic may include individuals or groups in historical events.

Write an essay including:

1. Research on your chosen person or group of people and the related historical event(s). Provide cited background information in your essay.
2. A reference or connection to the Holocaust or lessons learned about the Holocaust if your chosen topic is outside the scope of the Holocaust.
3. A description of how the individual/group took a stand against social injustice and exhibited moral courage.
4. A detailed explanation of why this information is meaningful to you.

Just learning about the courageous acts of the rescuers is incentive enough to participate, but because we are so excited about this contest, we are offering the following prizes:

Teachers are also eligible for Barnes and Noble gift certificates!

**DAVE NEBEL**

**NSCSS OUTSTANDING EDUCATOR AWARD**
The Nebraska State Council for the Social Studies also recognizes one outstanding social studies educator in each of the three legislative districts.

**NSCSS OUTSTANDING STUDENT TEACHER AWARD**
Each spring the Nebraska State Council for the Social Studies recognizes the quality work of Nebraska Social Studies student teachers.

**NSCSS PRESIDENT CARTER SERVICE LEARNING AWARD**
The purpose of this award is to recognize teachers and students for their efforts in service learning. Service learning goes beyond community service to include background knowledge and research of an issue that students can connect to. Projects should examine not only the current status of the community issue, but should also include a study of the causes and the potential solutions the problem.

The recommendation form for all of these awards can be found on the Nebraska State Council for the Social Studies web page -- the address for that page is www.nebraskasocialstudies.org

You can also go directly to the listing of the awards by going to www.nebraskasocialstudies.org/awards.html
